

TWO POST I10

LIGHT DUTY TWO POST LIFT

**10,000
POUNDS
CAPACITY**

Designed to raise most passenger cars, trucks and vans.

Two-Post I10N100 is Gold Certified

Powder coat finish; more durable than conventional finishes

Padded shut-off bar to prevent damage caused by lifting a vehicle too high

Single point lock release handle

Two heavy-duty Direct-Pull™ hydraulic cylinders designed to minimize down-time by requiring little maintenance

Shown: Model I10N100 with 3-stage front arms and frame engaging adapter accessories 10,000 lbs. capacity

Adapter storage bracket included with lift

Redesigned carriage - robust construction reformed for easier installation and routine maintenance

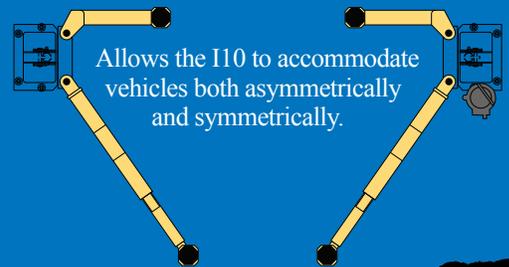

Baseplate design compliant with International Building Code

Shown: Model I10N100 10,000 lbs. capacity

Spot-Rite™
3-Stage Front Arms

Allows the I10 to accommodate vehicles both asymmetrically and symmetrically.

Engineering Excellence

Forward's U.S. engineers have over 29 years of combined experience designing automotive lifts for service and repair shops. Forward's philosophy is to own our designs rather than use someone else's off the shelf product.

Product Integrity

21st century design tools allow us to create, control and validate our designs to ensure maximum performance. Forward lifts are rigorously tested to meet quality and durability standards. All product families are proof load tested to 1½ times rated capacity and rigorously cycle tested.

Engineered to perform... Built to last!

I10 / 10,000 lbs. capacity two-post lifts

Designed to raise most passenger cars, trucks and vans.

Features:

- Spot-Rite 3-stage front arm design enables you to position doors in front of column or behind, to avoid door damage.
- Hydraulic cylinders in each column:
 - › Direct pull lifting technology
 - › Top mounted
 - › Full stroke
 - › Cylinder rod concealed inside carriage
- Overhead cable equalization with single point release lock
- Closed loop hydraulic system prevents oil contamination
- Large rubber padded swivel adapters with extra height extensions - standard.
- Spring operated arm restraints, disengage at floor level.
- Padded overhead height limit switch bar.
- Adapter storage bracket kit included
- Durable powder coat finish - standard
Lift color is blue with yellow arms - red lift with yellow arms is available.
- ALI certified

Available Options:

- Air/Electric work station with air regulator and oiler
- Rubber door bumper guard located on arm carriage

Specifications	I10N100
Capacity*	10,000 lbs. (4536kg)
Overall Height	143-3/8" (3642mm)
Height to Shut-Off	137-3/4" (3499mm)
Minimum Ceiling Height	144" (3658mm)
Minimum Adapter Height (standard adapters)	3-5/8" (93mm)
Maximum Lifting Height	76" (1930mm)
Adapter Extension Heights (stack type)	1-3/4" (45mm), 3-1/2" (90mm), 5" (130mm)
Front Arm Reach	23"- 44-1/2" (584mm - 1130mm)
Rear Arm Reach	38-1/2"- 58" (978mm - 1473mm)
Overall Floor Width	137" (3480mm) or optional 131" (3327mm)
Inside Column Width	115" (2921mm) or optional 109" (2769mm)
Drive Through	105" (2667mm) or optional 99" (2515mm)
Voltage†	208/230v
Amps	20
Motor	2 HP

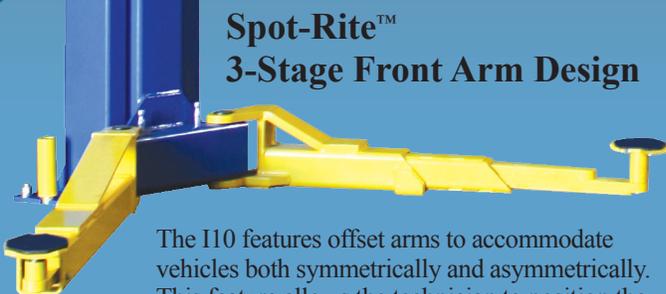

Specifications subject to change without notice or liability. (Standard lift colors include blue and red.)

* Capacity 2500 lbs. per arm

† single phase standard; 3-phase available at additional cost

Shown: Model I10N100 with 3-stage front arms and frame engaging adapter accessories 10,000 lbs. capacity

Spot-Rite™ 3-Stage Front Arm Design

The I10 features offset arms to accommodate vehicles both symmetrically and asymmetrically. This feature allows the technician to position the vehicle doors in front of or behind the column to prevent door damage.

Low-Profile Design:

The I10 features low-profile, oversized pads with multiple extensions to raise most vehicles on the road today. Includes four each of the following extensions: 1.75", 3.5" and 5"
